

Credit Card Options

*Available to those who have purchased the ChamberMaster Plus edition

Authorize.Net

ChamberMaster has partnered with Authorize.Net, who has been a leading provider of payment gateway services, managing the submission of payment transactions to the processing networks on behalf of merchant customers since 1996. Both a payment gateway and a merchant account are required to receive payments online via the web. If you have an existing merchant account, check with your local credit card processing company to see if they support Authorize.net as a payment gateway. If so, you only need to sign-up for the Authorize.Net Payment Gateway. If you currently do not have a credit card processing company, you would sign up for both the Authorize.Net Payment Gateway and the Merchant Account. Signup information is available through ChamberMaster but is submitted to, managed and supported by Authorize.net.

Authorize.Net® Payment Gateway Fees:

One-Time Set up Fee: \$99

Monthly Gateway Fee: \$17.95

Per-Transaction Fee: \$0.10

Authorize.Net
a CyberSource solution

If needed ->Estimated Merchant Account Fees (In addition to the Authorize.Net® Payment Gateway Fees):

Monthly Statement Fee: \$9.95

Transaction Fee: \$0.25

VISA/MasterCard Qualified Discount Rate: 2.19%

Monthly Processing Minimum Fee: \$25.00

Access the application form(s) at <http://www.chambermaster.com/cc/Authorize.NetApplication13310.pdf>
Questions? Call Brent Harwood of Authorize.net, 801-492-7044, or email bharwood@authorize.net. Visit <http://www.authorize.net/resources/howitworksdiagram> for an online payment gateway tutorial. Once your application is approved, please contact the ChamberMaster Software Support staff at support@chambermaster.com.

Infintech

Infintech is supported by ChamberMaster. Once you have your account setup contact ChamberMaster to get your account integrated. For detailed information on setting up an account with Infintech go to

<http://www.infintechllc.com/>

Beanstream

Beanstream is supported by ChamberMaster. If you have an account already, contact ChamberMaster to get your existing account integrated. For detailed information on setting up a new account, access information at <http://www.beanstream.com/public/index.asp>

PayPal Website Payments Pro

PayPal Website Payments Pro is supported by ChamberMaster. If you have an account already, contact ChamberMaster to get your existing account integrated. For detailed information on setting up a new PayPal Website Payments Pro account, access information at https://www.paypal.com/cgi-bin/webscr?cmd=_wp-pro-overview-outside

Gateway Emulator

ChamberMaster can submit transactions to your processor if they have created a gateway emulator that matches the exact specifications that Authorize.Net uses. All we need is the Gateway Transaction Server (or postback) URL to input into your setup, along with your account login information and transaction key. Please contact your credit card processing provider to find out if they have an emulator using the specifications that Authorize.Net uses.
